

Consultants Alliance Firm

Services – Accounting

The nature of business activities is continually changing and growing ever more complex and hence affecting changes in financial reporting (standards), which is the basis of any management and investment decisions. Our CAF specialist advisory team in financial reporting helps companies interpret and apply International Financial Reporting Standards, i.e. UK GAAP and US GAAP through flexible and tailored support.

Our team has strong technical expertise in a wide variety of challenging financial and narrative reporting matters and provides accounting advice on both small and large projects. As well as interpretation and application advice on financial reporting standards and the implementation of accounting standards both on a local and international level.

Where permitted by local laws, our firm provides a wide range of financial reporting advisory and other accounting services to our clients. These include:

- Bookkeeping.
- Preparation of budgets, management accounts and periodic financial analyses.
- Provision of temporary or part-time accounting assistance.
- Design and implementation of accounting systems.
- Preparation of accounting manuals.
- Payroll services.
- Business integrations including intangible asset valuations and impairment reviews.
- Narrative reporting.

Our team also has access to experienced technical trainers who provide tailored courses to guide finance teams through the complexities of accounting requirements in accordance with IFRS. As a firm we pride ourselves on technical excellence. Our clients have direct access to our experts through our financial reporting advisory team.
